WELCOME

Parents and Teachers

This workbook helps children aged 3 to 6 learn the letters of the alphabet, the sounds they make, and how to put sounds together to read simple words. Short, playful activities keep little learners confident and happy.

1 **Little and often**
Do one or two pages a day, about 10 to 15 minutes. Stop while your child is still enjoying it.

2 **Say names and sounds**
Every letter has a name (bee) and a sound (/b/). Say sounds short and crisp: /b/, not "buh". Letters can have more than one sound; we start with the most common.

3 **Trace, then write**
Children trace the solid or dotted letter, then write alone. Start at the top and form letters with the same strokes each time. Hold the pencil with a relaxed three-finger grip.

4 **Listen and say**
Many activities need an adult to read words aloud. Stretch the sounds slowly: sss-un. Then ask your child to repeat.

5 **Celebrate effort**
Praise trying, not only correct answers. Mistakes are part of learning. Use stickers and stars freely.

6 **Answers**
Answers for matching, circling and missing-letter activities are printed in small grey text at the bottom of each page. Drawing and speaking tasks have no single right answer.
